

## Logo Competition

Every school involved in our project had a logo competition. The winning logo from each project was chosen.

### Shortlisted Hungarian entries

### Hungarian students voting for their favourite

### Shortlisted Irish entries

Shortlisted Finnish entry

Shortlisted Turkish entries

Then all of the participant countries shared their winning Logo with the Turkish partner, whose colleague selected elements from each one to create a combined Logo.

We all agreed that it perfectly symbolises our project:

- The flags from all of our countries are combined together representing our commitment to collaborating together and sharing stories and learning about each others culture.
- The open book also symbolises stories and sharing.
- The blank pages also to represent the potential to work together to create some stories, drama, artwork etc.
